OES Weekly Report – November 6, 2018

**NOVEMBER: EMERGENCY SUPPLIES**

DO YOU HAVE THESE ITEMS IN YOUR EMERGENCY BAG?

www.doithing.com

## November -- Emergency Preparedness Tip

The month of November is a good time to put together both an emergency kit with important items to keep at home and a go bag with items you will need to take with you if you evacuate. Think about what you and your family would need in a disaster. You can make kits for your home, car or workplace. Emergencies can happen anywhere.

## NWS Bay Area – Red Flag Warning

Wednesday, 11/7 PM to Friday, 11/9 AM

**Red Flag Warning**  
10 PM Wednesday - 7 AM Friday

Weather Forecast Office  
San Francisco Bay Area  
Issued Nov 06, 2018 9:30 AM PST

**North and East Bay Hills above 1000 feet**

- NE Winds 15-30 mph with gusts 40-50 mph, locally 50-60 mph in highest peaks
- RH lowering to 8-18% during the day Thursday with overnight recoveries less than 30%
- Any fires that develop will likely spread rapidly

Hazards  
Red Flag Warning

weather.gov/BayArea

A late season offshore flow event will bring critical fire weather conditions to the Bay Area as high pressure builds across the Great Basin. North to northeast winds will develop Wednesday night and increase early Thursday. Winds will be strongest over the higher terrain, especially the North Bay Mountains and East Bay Hills. Offshore flow will result in lower relative humidity, especially poor humidity recoveries at night in the hills. The combination of gusty winds and low humidity will result in critical fire weather conditions prompting the issuance of a Red Flag Warning. Conditions are forecast to gradually improve on Friday with decreasing winds, but relative humidity will remain low.

## [CAL FIRE Announces Availability of Funding for Grants to Reduce Fire Threat and Improve Forest Health](#)

**Sacramento** – The California Department of Forestry and Fire Protection (CAL FIRE) announced the availability of up to \$155 million for Fire Prevention and Forest Health projects. CAL FIRE is soliciting applications for projects that will help prevent catastrophic wildfires and restore forest health while also sequestering carbon and reducing greenhouse gas emissions.

CAL FIRE’s Fire Prevention Grants Program will provide funding for local projects that address the risk of wildfire and reduce wildfire potential to communities in, and adjacent to, forested areas. Qualified activities include hazardous fuel reduction, fire planning and fire prevention education with an emphasis on improving public health and safety. Details on the grant application and administration processes are available in each program’s Grant Guidelines. Find more information and sign up for announcements at <http://www.fire.ca.gov/grants/grants>

## **SANTA CLARA COUNTY OPERATIONAL AREA**

### **Important Dates, Community Celebrations and Holidays**

#### **November is Critical Infrastructure Security and Resiliency Month**

Critical Infrastructure Security and Resilience Month, observed in the month of November, builds awareness and appreciation of the importance of critical infrastructure and reaffirms the nationwide commitment to keep our critical infrastructure and our communities safe and secure. Securing the nation's infrastructure is a national priority that requires planning and coordination across the entire community.

## **TRAINING OPPORTUNITIES**

### **Webinar: Emergency Fuel - Planning for Preparedness**

Co-hosted by: WaterISAC and the National Association of Water Companies  
Wednesday, November 14, 2018, 11:00am-1:00 pm PST

[Register](#)

On November 14, WaterISAC and the National Association of Water Companies will cohost a webinar that will describe how utilities can develop plans to have adequate fuel supplies after disaster strikes.

- **Jim Wollbrinck**, manager of security and business resiliency at San Jose Water, will discuss the steps necessary for a utility to develop an emergency fuel supply plan.
- **Dr. Justin Cochran**, nuclear policy advisor and emergency coordinator at the California Energy Commission, will address the role of emergency management agencies in preparing for and responding to emergency fuel needs.
- **Ryan Hanretty**, executive director of the California Fuels and Convenience Alliance, will describe the logistics required to deliver fuel during an incident.

The webinar is available to all interested individuals and will include opportunities to ask questions of the presenters. Please contact us at [support@waterisac.org](mailto:support@waterisac.org) or 866-H2O-ISAC.

## Office of Emergency Services

November 6, 2018
